Sunlight open up my eyes
Maybe I'll be fine again, again, again
Sober, running out of lies
Maybe I'll be fine again, again, again

Oh get ready I'm a light in the dark
It's the fire in your belly and the blood in your heart
Gonna bury my foes, tear them apart
Electrical, Electrical

Take your time and make it last
Maybe I will cry again, again, again
Let go twenty years the past
Watch me as I fly again, again, again

Oh get ready I'm a light in the dark
It's the fire in your belly and the blood in your heart
Gonna bury my foes, tear them apart
Electrical, Electrical

Can you feel it in your lungs
Everything that you've become
Electrical, electrical

Oh get ready I'm a light in the dark
It's the fire in your belly and the blood in your heart
Gonna bury my foes, tear them apart
Electrical, Electrical
