I give up on giving up
This isn't right and I've had enough
This is more than any teacher anyone ever told me
Someone lied
I wasn't and I'm not prepared
No one ever showed me that life isn't fair
Mom, dad this is more than I thought it'd be
At least I tried.

Cause' the world feels like it's crashing down on me
It's crashing all my hopes and dreams
There's no glory
It's destroying my life story
But I know I'm gonna make it one day

I give up and nothing's enough
This isn't right and it's not my life
This is more than any teacher anyone ever told me
Like a fairy tale story
I wasn't but I don't care
I just wish I just didn't have a care in the world
Mom, dad this is more than I know
Please don't leave me alone
