We're all just chasing
Our wildest dreams
The ones that meant everything to you and me

I tend to not believe in dark intentions
But you deserve the consequences

(Whoa)
It's just my nature
(Whoa)
Not to change
(Whoah)
To hold on and stay the same

Acoustic guitars they sing to me
Love songs are in my dreams
So lets have a party just to listen

Take your title
Take your reputation
I don't need it
I don't believe in it

I know I'm quick to hold on
Hold on
At least I try to move along

Keep your dependence
Keep your doubt
I still don't see what all the fuss is about
Were staying young
(Were staying young)
Were getting older
(Were getting older)
Just remember
Summer isn't over
