It's taking everything I have not to scream  
I'm barely getting by and staying sane  
She talks to me  
Don't talk to me  
There's the road but I don't tread  
I question these people I call friends  
She lets me go  
Don't let me go

I'm running myself to the bone  
I miss the place I call home  
There's one thing that I miss so much  
The world I left  
The girl I love

It took 3 years for me to grow up  
3 Years for me to learn about the world  
And that no one will ever be like you  
It took 3 years to drop the little things  
3 years of everything  
3 years for me to learn I loved you

It's taking all my strength to not collapse  
To hold myself up and stay relaxed  
She holds onto me  
Don't hold onto me  
And this is to the distance between you and me  
And every goal we're trying to achieve  
She doesn't give up  
Don't give up on me

I'll always miss you when I'm away  
I'll always hug you when I come back  
I'll always laugh when you slip up  
I'll always help you when you've had enough
