Don't bite your tongue
When she walks in the room, I'm done
She's amazing, I'm crazy, she's won
My hearts been stung
For the love of an angel, I'd run
Up a mountain stare straight at the sun

And if you don't believe
She's the fairest one of all
Met here at the crystal ball
And she was bearing it all
All if you don't believe
Just take one look at her face
Because she smiles with grace
This girl you can't wait to taste

I know were young
Got the word on the tip of your tongue
She's contagious, I'm crazy, she's won
Lets have some fun
God I'll stick to you like gum
For the girl of my dreams, I'm spun

And if you don't believe
She's the fairest one of all
Met here at the crystal ball
And she was bearing it all
All if you don't believe
Just take one look at her face
Because she smiles with grace
This girl you can't wait to taste
