Turn Me Off
Ignore me gorgeous
I'll be waiting up forever
Don't turn the page
Or look the other way
Don't be scared afraid that you can't
Can't turn away

And I believe
There's a better way
One that's straight to your heart
You know I need
To see you smile
God it's been a while for me

Turn me off
Ignore me gorgeous
I'll be waiting up forever
Another summer day
All these things I have to say
Don't be sad together at last
Together again

Tell me that you're leaving
I just need a reason
Just another day just another way
Another chance to say I'm here to stay

And I believe
There's a better way
One that's straight to your heart
You know I need
To see you smile
God it's been a while for me
