Jolene you were the best friend I ever had  
Somebody get me a doctor yeah  
It's beyond me how you could go and treat me oh so  
bad

Who is your one true friend?  
Who is your one true friend?  
You're jealous and it's all because of one thing

And I don't really care if you can hurt me  
You know that you'll never have  
I'm going to take as much as I can grab  
Who is your one true friend?  
Who is your one true friend?  
In the end you'll have to come to your own defense  
Jolene, you were the best friend I ever had

You're jealous and it's all because of one thing  
And I don't really care if you can hurt me

Yeah yeah yeah  
Yeah yeah yeah  
In the end your one true friend has to come to your  
defense
