(A. Scott/Sloan)

Well we meet again  
This time it's like a drive by in the rain  
And right beside us our will is done  
It simplifies us and keeps us as one  
And tonight (is the night) all that might is coming true

There's no need to complain  
'Cause there are so many others we could blame  
There's something 'bout the way that I spend my time  
I complicate things to keep you in mind  
And tonight (is the night) all that might is coming true  
Yeah tonight (is the night) all that might is coming true

Tonight what will you do  
Tonight what will you do

With one more down the drain  
Every added penny sends another shooting pain  
I never dreamt that it would end like this  
A twenty thousand dollar cease and desist  
And tonight (is the night) all that might is coming true  
Yeah tonight (is the night) all that might is coming true  
Tonight (is the night) all that might is coming true
