I fell in with your crowd
I didn't belong
I didn't belong
You weren't exactly wowed
I didn't belong
I didn't belong

I wondered what I did to offend
It wasn't one thing it was more of a blend
I've learned the cruelest rules never bend

Meanwhile back in school
I didn't belong
I didn't belong
My name defined uncool
I didn't belong
I didn't belong

Just how this happened is up for debate
Some say I learned it some say it's inane
But it's out the window when we graduate
My reputation

Gets another chance
Will I belong?
Will I belong?
