# "Your Dreams Have Come True"

Visit "[Your Dreams Have Come True](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Your dreams have come true  
everything's up to you  
but you can turn into someone new  
you can't change what you lose

you can't see  
but believe that  
the toll it takes  
it's worth it your dreams come true  
the mess you make

that sense of hope you steal  
the damage that you can feel  
it's time to let heal  
can turn into something real  
you can't see

but believe that  
them ess you make  
your dreams have come true  
the toll it takes it's worth it your dreams come true  
turned into something new your dreams have come  
true
