Don't wanna call you and take you to the show
Don't wanna go on dates with you and write you sappy
notes
I don't need the hassles I don't need the headaches too
Don't wanna be in love with you

I don't wanna take you for walks on the beech
I don't want you hanging on me like a leach
'cause I know what you're trying I know what' you're
trying to do
Don't wanna be in love with you

Love is a waste of my time, Don't waste my time
I got better things to do
To you love is just games and googly eyed teen
romance
And I don't wanna be in love with you

I don't wanna think about you everyday
I don't wanna shower and put on aftershave
'cause love is for assholes yeah love is for assholes
It's true.....
Don't wannabe in love with you
