It's not something I say to you  
And it's not something I have to do  
It's just the urge to tell you once to go to hell  
But I guess that if I don't it's just as well.

I've never been a vindictive guy  
But I'd like to hear you when you cry  
And I'd like to hear you when you say that you messed  
up  
So I guess I'm pretty sad, I guess I suck.

It's not something that I think of everyday  
Only on the ones when you're away.

Yeah, it's not something that I think of everyday  
Only on the ones when you're away

There's one more thing I need to say  
I never meant to ruin your day  
It's just some crap you have that I could never buy  
And I should have known better than to even try

Than to ever even try ... I tried ... oh yeah
