

## Cool Kids, The "Bassment Party"

Visit "[Bassment Party](#)" on [MotoLyrics.com](http://MotoLyrics.com)

[Chuck Inglish]

They say if you ain't got no money take yo broke ass home

I say if you got you two dollars, then come through to my party

But get bent before you come because for that liquor I'll be charging

And take down these directions

It's right past the intersection

Make a right at the light

It's the first house on the left

And get it, got it good

You made it, I knew you would

We got them drinks up in the back and them chic-key's looking good

Hold up, here come one ayy what's yo name hun?

Jackie brown, yea that pop

Ayy I'm chuck, this mikey rocks

And let me introduce you to some kids that you ain't used to

Yep we bet that we ride bikes

Carrying bones and jordan 5's

Got every single color so

Just in case you wonder

My party's is always live

As a mother is for supper and

In the summer when it's hotter then the oven

We the coolest kids we know

So you know we into something

That involve doing something

With a trunk to get that bass drum pumping

It's my party, so get up

If you don't you getting jumped

[Chorus]

What's happening?

Where's the party?

Say you heard me say there's a party

Right around my way

So if you finna start it

Then don't do nothing small

Get everyone involved and  
Say that it's a party  
What's happening?  
Where's the party?  
Say you heard me say there's a party  
Right around my way  
So if you finna start it  
Then don't do nothing small  
Get everyone involved and  
Say that it's a party

[Mikey Rocks]  
One to the two  
Three to the four  
Chuckkey and mike is at yo door  
We don't knock  
We straight on that  
"when yo album drop"  
You can wait on that  
I don't don't like the questions you ask so  
Let me tell you a little about myself  
Everywhere I go I act an ass  
And if you ain't know  
Better go and ask  
At every party  
I hop the bar  
And then dance with the chicks  
On top of that  
Bartender be like, get off of that  
I'm like not till I get rich off of rap  
And I look to the left, she dipping her hips  
And making her lips, at me I guess  
And I look to the left and look to the right  
Point to my chest and she was like "that's right"  
Now let me tell you the recipe  
To all you niggas tryna get like me  
It takes a scoop of being cool  
And the recipe include it  
When you purchase my movie  
Cause if you knew what I knew  
You would prolly try to  
Do whatever I do  
Prolly move to chicago  
If you want instructions  
Then I could prolly front them  
Just as long as you shortys pay attention  
So if you ugly keep you hands by yo side  
But if you not then put em' in the sky  
And if you knowin' what it is  
There's a party at the crib  
Come and party with the kids

[Chorus]  
What's happening?  
Where's the party?  
Say you heard me say there's a party  
Right around my way  
So if you finna start it  
Then don't do nothing small  
Get everyone involved and  
Say that it's a party  
What's happening?  
Where's the party?  
Say you heard me say there's a party  
Right around my way  
So if you finna start it  
Then don't do nothing small  
Get everyone involved and  
Say that it's a party
