So certified USDA brand dude from PA man
this UGK and I'm rockin my Ray-Bans mirror lens tinted
up
servin' these boys so place your orders out
send'em up
blue plate special with the blue paint drippin'
carolina blue j's on my feet
and I ain't trippin' dippin' one deep
fuck it two matter fact quatro me chuck mikey and once
he left out four
sweet james jones grippin' sweet grain holmes
it's a bumpy ride ahead so you best to hang on
we kamikaze style and we 'bout to get it gungho
84 go ritz on 84 the trunk is hung low
fifth wheel trickin' got the boppers in my sight
I bust a u-y at the intersection catch'em at the light,
yo whats cracking for tonight?
'Cause if you ain't got a plan I got a man and we could
hook up something tight just make a right into the gas
station.

[The Cool Kids]

I got my hands full
the full force force and d's
trumps in the tape player
88 cutlass supreme
with 6 grade tables all eyes on me
nas used that same beat when he spit street dreams
my mom drove a coursica we was in the back seat
looking out the window imagination real big dreams
I set a new standard for who felt like me
demonstrator style wild flagrant fouls can't screen
showing you the big picture the complete HD
DVR rewind it back you wouldn't believe
said I bring that old thing back and they couldn't
believe it
airfares way more for a trip to Ibiza

the petrol is 5 bucks, I can't believe it
what the fuck is the deal?
We too dependent on that barrel
it's the way of the world
keep shifting it's gears man
I gotta fill up, you want something from in here?

Throw it reverse for some shorty with the works
write my number on some paper then throw it in her
purse
as I ride by first things first
9 times out of the 10 that cool shit usually works
it's 70 degrees I'm in a short sleeve shirt
without wearing a jacket put seeds in the earth
I'm growing money trees in my front yard
let me water my lawn
I make it look so easy it hurts
let me get my other dollar back
know I have change cause the chicken wrap don't cost
more than I gave fool
man you can keep that buck and all my niggas in the
range roves just keep trucking
same picture in the frame so selling suede hats and
the rain won't work but one try won't hurt me
lucky number 10's and a rondo jersey
be at the gas station you can get in the front seat
