[Chuck:]

If I had a hundred grand  
And I'll be god damned if I throw it in the air Like I  
didn't care  
And I must say it's is no way nowhere  
There's no pocket full of cash too be thrown in tha air  
Cause I could take that and spend pair of  
M8 gears with the front tips and the lights in the rear  
Use my spare change with the green handle bars  
where the grips is clear

[Mikey:]

The cool kids in the sandbox ya'll can't play  
Say ya abc's not a bay bay  
I got the all blue 3's light one two tres  
No espanol then thass okay  
Cause back on my west coast L.A lakers, 32 Johnson  
jersey  
Call me senor fresco, thass more Spanish  
Thass Inglish, I'm Mikey, Wayne vanish

[Chorus]

[Lil Wayne:]

I go by weezy f. b thass who I be  
You don't wanna lose me like new l.d  
I beat up the track like the new ali  
And leaving eye black and blue and green  
And They tell me I could do it, juss do it clean  
But I'm from the dirty south, I dunno what that means  
M&m I am a money machine  
Two girls in the bed with son in between  
Now I treat women like a nun or a queen  
If she got nice legs she can run on my team (yea)  
I stick her up like a gun in her spleen  
My name is lil wayne and I'm a micro fiend

[Chorus]

Uh, back back on my one two  
Now watch me snap like a jump suit

Country like gold on ya front tooth  
And I work all day like the phone booth  
Sometimes she gets too thick for me too comb thru  
And I juss need a relaxer and some shampoo  
Spit a dizzy and mac they went too camp too  
We get money and we smoke like candle  
When we do it I let keep on her sandals  
She just wanna get used like samples  
And you know I jumps in it like a trampoline,  
Wayne the micro feen (hit me)

[Chorus]

Jumped out the driver looking like lava  
Stick it to the script like java, holla at cha guala  
Infected with money and power  
And I'll be the teacher like Steve Hightower  
Got my vans on but these marc Jacobs  
And I'm so high I thought I saw spaceships  
A list number one on ya play list  
Flow poi-so-nous like snake spit  
And I got a lil money where the safe is  
For my babies babies babies, babies babies babies,  
Babies babies babies
