The antidote for irony  
Set safe, far away from you  
I heard you say just this one time  
So I guess I'll, just sit down and see for myself  
I'll go where you take me  
And go feel the lies go burn your eyes  
And I'll wait 'til you say please  
You said this counts for so much more

Wait 'til tonight  
You'll see exactly what I've seen and can't believe  
I'll lie at birth, what it was  
To find a way to kill the pain

Put down, put down the loaded gun  
Or point it straight between my eyes  
'Cause you can't fight fair tonight  
With words that cut like knives

(And I want) To see you do the things you never do  
(And I want) To feel your skin but now the ceiling spins  
in the room get cold  
I'll go where you take me  
You feel the lies cover their eyes  
And I'll wait 'til you say please  
You said this counts for so much more

Wait 'til tonight  
You'll see exactly what I've seen and can't believe  
I'll lie at birth, what it was  
To find a way to kill the pain

Put down, put down the loaded gun  
Or point it straight between my eyes  
'Cause you can't fight fair tonight  
With words that cut like knives

Put down, put down the loaded gun  
Or point it straight between my eyes  
'Cause you can't fight fair tonight  
With words that cut like knives

The day will come and it kills me  
That the thing that I gave you  
Will take you away from here  
I need a chance to catch my breath  
I know the only thing that can take away our fear

Put down, put down the loaded gun  
Or point it straight between my eyes

Put down, put down the loaded gun  
Or point it straight between my eyes  
'Cause you can't fight fair tonight  
With words that cut like knives

Put down, put down the loaded gun  
Or point it straight between my eyes  
'Cause you can't fight fair tonight  
With words that cut like knives
