Been training dogs again,
to bite your little princess,
and making sure they make a scene,
running errands all the way,
communicate in codes,
you've just gotta make the in roads.

Holding on.....to what youve got
making plans.....just to stay alive
doing time....oh, i bet you will
im doing mine.....by the side of the road
making out.....cos im making good
what its all about.....like i said i would
then you realise.....well look who's laughing now

We take pride in our work,
the keys the execution,
and hey, thats what we had in mind,
but we're not just having fun,
i wouldnt wanna be ya,
cos we're drawing blood if we see ya

Holding on.....to what youve got
making plans.....just to stay alive
doing time....oh, i bet you will
im doing mine.....by the side of the road
making out.....cos im making good
what its all about.....like i said i would
then you realise.....well look who's laughing now

And we're not afraid to use animals,
or anything else that'll tear itself a hole,
yeah, we'll be just like dumb fucking animals,
if that's the kind of game,
you wanna play?
