

## Cooper Temple Clause, The "Damage"

Visit "[Damage](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Creeping all night in the heat  
Getting hot under the collar and speaking again  
Give me the runaround  
Youre never gonna bring me down

Sleeping all night like a leaf  
Youve got to trust your instincts  
Get a good feel for it  
They never let you down  
Youre never gonna get it

Cos youve got to keep felling the heat again  
Spreading your seed again  
Black as an evil sun  
Get a feel for it, back on the scene again  
Having a sleeparound  
Slip, shred your fingers and you will find

You get their name wrong and you find youve caused  
damage  
You got your little friends  
Yeah your stupid little friends  
Yeah your stupid little damage

You get their name wrong and you find youve caused  
damage
