We draw up maps
So we can slip away
Wrapped up in coats
Our whispering friends

So throw all your knives
Before it gets too late
Blacken the graves
We'll be okay

This must be our fault
These must be our scars
Tell us what's wrong
Tell me who you are

So sharpen your heads
And we can stand just there
Focus, gently
We don't even care

Our eyes are bright
And we kill caffeine for sport
We get in trouble if we stay up after dark
'Til we fall down and we fall down anyway

Out in the hallways
We make our tracks in packs
We get in trouble if we stay up after dark
And we fall down and we fall down anyway

So turn up the dark
We can't close our eyes
Though twinkles and fuse
and England's truth

We weaken
Just breathing (just breathing)

Just breath (just breathing)
Just breathing
Breathing

Breathing
Breathing

Our eyes are bright
And we kill caffeine for sport
We get in trouble if we stay up after dark
'Til we fall down and we fall down anyway

Out in the hallways
We make our tracks in packs
We get in trouble if we stay up after dark
And we fall down and we fall down anyway
