You never let go
How the hell was I to know
That you'd never let go
You never let go

Now I'm all on my own
It's out of my hands
Now there's rockets in the sky
And it's all out of control
They've taken control
They're losing their heads
They've got the money
Now the meek have got the message
Be afraid of what you can
And be gone on your way to all your wasted lives

I can't be the only one
To think what have we become
Who can't quite believe he's on this side
This is no ordinary world
What have you gone and done?
When you had the chance to prove us wrong
I can't be the only one (I can't be the only one)

You left me down here
You let me down
Now it seems you're never coming back
Because they never fight fair
They've dragged us all in
Just stay on guard
Don't show all your cards
Repeat you have to stay on guard
And be afraid of what you can
And be gone on your way to all your wasted lives

I can't be the only one
To think what have we become
Who can't quite believe he's on this side
This is no ordinary world
What have you gone and done?
When you had the chance to prove us wrong

I can't be the only one (I can't be the only one)

Go on your way
Don't be brave now
Just keep your head down
We'll do our best but we can't hold on too long

I can't be the only one
To think what have we become
Who can't quite believe he's on this side
This is no ordinary world
What have you gone and done?
When you had the chance to prove us wrong
What have you gone and done?
Yeah you had the chance to prove us wrong
I can't be the only one (can't be the only one)
