(Verse 1)

Dear Jane won't you please leave me alone,
I don't like where your coming from.
All the things you say,
Keep me awake.

And I'm in a silence,
I can't remind us.
Of how things used to be.
Dear Jane won't you please leave me alone.

(Pre-chorus)

Sing me a sweet song.

(Chorus)

If she calls me up tonight I'll say,
"Ohh please Ohh please just go away,
I'll break your heart in two".

If she calls me up tonight I'll say,
"Ohh please ohh please just go away,
I'll break your heart in two".
It'll be as sweet as you.

(Verse 2)

Dear Jane won't you please leave me ohh,
Cause your mighty distracting so.
When you open your mouth all I hear is.

And I'm in a silence,
I can't remind us.
Of how things used to be.
Dear Jane won't you please leave me alone.

(Bridge)

When I took her back,
She put her hands on the ground.
I said this is headin',
Straight for a breakdown.
