Can you feel the power of this song
The energy it is giving you
Brothers united in mind
Cause Metal is our law.

HEAVY METAL is our law
HEAVY METAL we are proud and standing tall / we'll
never fall
HEAVY METAL is what we feel
HEAVY METAL harder than steel

Proud 'n Free like will of steel
Our hearts are as pure as the silence of a night
We are brothers of METAL united in fight
Cause METAL is our law

Listen to your hearts they don't defraud you
This shall be our fighting song
Even the world is black and hope gets lost
We'll stand together until the end of time

Our life belongs to Heavy Metal
Our fight applies to its enemies
We'll fight for our right
To live like we want.
