Do it slow, move it like you using that promethazine
when you get thrown
Then you probably gonna end up sex to me
Have me think you fantasize, whisper you get wet for
me
Girl you ever sexy, I swear you wearing that dress for
me
5 star shit, from the tellie the machete
Smooth as biga bellie, burning something smelly the...
Oh yeah hey, I'll be popping, I'll be pouring, I'll be
spilling Pariah
I'm the type to win your chick that very day
You looking at the... in the flesh, the result after
success
Ain't that... see you know I'm gonna floss like an atrax
Girl you fly, now bring that flight and land it here love
Light it up so we can keep it in the air, love
Roll another one and we can keep it there, love
That's a bad bitch rolling up I call it air bud
Yeah, I swear the night still young
So it's like the... the way that I keep going while we

Do it slow motion, do it, do it in slow motion
Do it, do it, in slow motion
Do it, do it, in slow motion
Slow it, slow it, slow it down
Feeling like it's never ending
Turn a 100 frames a second
To a 100 frames a minute X 2

Let's shoot a movie, shoot a movie
Bitch it's bullet time, screw it
Mine set, like fuck it, money... just do it
Hit the fast lane, stupid,
Car retarded, feeling foolish
Like a rocket, down to Houston
Boy stallion with some booty
Ass up all in my face...
Girl the star is just alive when you looked into my eyes
I could have lied, but I told the truth
The game ain't always good depends on who I sold it to

So you be my... you got them mac I know you do
Why chances slim...
Seconds seem the slow to you too? Boo
By no means am I complaining, am I talking too fast
Let me break down what I'm saying
Life is short is not enough
For me and you feel like forever
Let the world run it's course
While we... the pleasure
Girl... let's just stick together frozen
Keep each other... racing while we do it in slow motion

Do it slow motion, do it, do it in slow motion
Do it, do it, in slow motion
Do it, do it, in slow motion
Slow it, slow it, slow it down
Feeling like it's never ending
Turn a 100 frames a second
To a 100 frames a minute X 2
