What can make you laugh can make you cry  
See the sadness behind my eyes  
What can make you live can make you die  
Oh I'm so happy, that is my disguise

But I don't fit in anyway  
I'll keep trying just the same  
Now's the time to take a stand  
It's in your hands  
Now's the time to take a stand  
It's in your hands

What can make you love can make you hate  
If you're gonna run then don't hesitate  
They say it can't be done, you know it can  
On this day well you'll become a man

But I don't don't fit in anyway  
So I'll keep trying just the same  
Now's the time to take a stand  
It's in your hands  
Now's the time to take a stand  
It's in your hands

Not knowing how you feel  
That is worse than feeling bad  
Is there a feeling I can steal that can stop me from  
feeling sad today

Now's the time to make a stand  
'Cause it's in your hands  
Now's the time to take a stand  
It's in your hands  
Now's the time to take a stand  
It's in your hands  
Now's the time to take a stand  
It's in your hands  
Now's the time to take a stand  
It's in your hands
