Cold in California  
I hope that you're warm  
I heard that it snowed there this year  
My arms still know you  
Feels like you're close  
Like you never left here

It won't, it won't be long  
I'll wait while you're gone  
Every night, counting stars in the sky  
It won't, it won't be long  
'Til I'm gonna love you far and wide

Ooh Ooh Ooh...

Just south of Los Angeles  
I'm out late again  
This champagnes no fun without you  
I only get lonely  
In a crowded room  
Oh if only you knew

It won't, it won't be long  
I'll wait while you're gone  
Every night, counting stars in the sky  
It won't, it won't be long  
'Til I'm gonna love you far and wide

Ooh Ooh Ooh... X2

It won't, it won't be long  
I'll wait right or wrong  
Every night and the stars might align  
It won't, it won't be long  
'Til I'm gonna love you far and wide
