Doo doo doo,

Sunshine,  
I'm just so happy you're, you're mine all mine  
Every cloud in the sky  
Every bee buzzing by knows why  
I'm calling it love

I can't help singing  
You're just like the Spring and  
You've melted all my snow  
Days seem brighter  
Birds are flying higher  
It's like they all know  
Everywhere I go I sing

Doo doo doo,

Oh there's sunshine  
Every moment we're, we're side by side  
I don't care, let them try  
They won't love you like I, oh my  
I'm calling it love

I can't help singing  
You're just like the Spring when  
The daisies start to grow  
Days seem brighter  
Birds are flying higher  
It's like they all know  
Everywhere I go I hear  
Doo doo doo,
