(Intro)

Word to my niggas, word to the biggest

(Verse 1: Issa Dash)

We be that Elevated Mafia, Underachievin' lot with us
Nigga there ain't no stopping us, prosperous of that
garlic drug

Mantras when I spit this flow, knowledge filled up in
every bar

But I'm guided by the light, no shine. Soldier of the
Father but I ain't no Christian

Underachievers, make believers out of heathens
Portrayin' legends, got greatest presence up in heaven
Sittin', rolling up that dynamite. Prickly shit, that
porcupine

Pot prescriptions, that funky shit you hit it then you quit
it

(Verse 2: AK)

Eyes Closed, Indian style

Sitting, my mind zones

Herbal essence, Cali kush, aroma for the stoners

Benjamin Franks on us, can't get a Lincoln out us

Before you think about it, we got it, just being honest

We progress when we ain't tryna'

UA, we be the definin' diamond

What I need, a rhyming needle sharp nigga ego-
shining

Hear on from here on, if not you hear wrong

Young intellect with fear gone, I'll take a beer on

(Interlude)

One time for the niggas in the hood uh

And all my niggas know when they be livin good uh

I am the man, forgive the past

Motherfucker, I'm tryna, I'm tryna

I'm tryna build it up into a bigger plan

(Verse 3: Issa Dash)

A bigger plan. Forever young, call a nigga Peter Pan

God told me young that I would be the man and suffer

then
Medicine, medical grade, nigga know my purple rims
Rislow shit roll it and face it, this weed is limitless
Up the stairs, out of your old ways, elevating your full
Take conscious up out of deep space, can't relate
That's why we don't bump your mixtape, only keeping
good shit on replay
That Marvin Gaye, little Coldplay, maybe Shade

(Verse 4: AK)

Seven days seven nights, in the Brooks straight creatin
Like the music in the soul, food for thought you been
waitin
Pickin up shit with my apron tight
Listening to this verse might save your life
Hard work put in, automatic gon win
Had to learn from the scenes but I pay that price
I'm faded, know not how dog I faded
Lost some friends in the struggle, I never thought I will
make it
Manny, my fuckin brother, I love you, you are the
bravest
Even though I just met you, my heart you are engraved
in
Amen.

(Interlude)

For all my niggas livin up inside the sky
Livin out they dreams, that lovin and they lives
Makin they name, chasin the game
Don't admit it, you with it
Don't make me
I'm not just giving it up without a, without aâ€!

(Verse 5: Issa Dash)

How you lookin' for shit to change if you ain't changing
your ways
Making the same mistakes, defining insane of your
game
Richard and I don't like RZA,
And all of the sudden you free brother ones
Speak the wisdom, I read it well
Though creatin some better men
Putting out to the kingdom
'Cause you know the part comes with the wisdom
Get some, we from God on a mission
Free niggas, drag em into prison, listen
Roll that choppa, that medicine
Unachievers I represent
Put it down for my niggas man
Keep the bullshit back in the damn

(Verse 6: AK)

I got the illest flow, when my spirit glows
Underachieving till the grave, tryna' heal the blows
Limits broke like the levies down in NO so we float
Higher teacher, higher learning, that's the knowledge
we promote
Eyes focused on that goal, stay countin them pesos
The fountain of youth founded by conscious you ay
folks
I promise this red knowledge, roll up and remain drove
Pay homage to the prophets 'cause we offer the same
coach nigga
