I wore it out, I played along a bit and missed a hit.  
I'm out of trace now, walked away now,  
alright... tried to fight, I look at emptiness, my private  
mess. I'm out of place now, just walked  
away now, alright... gimme back the choice to win  
again, gimme back the voice so I can sing along with  
them. I'm out of trace now, lost my face  
now, alright... wore it out, I played along a bit, missed a  
hit. I'm out of place now, walked away now,  
alright... peace is over... peace is over... peace is over...  
peace is over... peace is over
