"Favourite pool"

No harm
Prevent the previous pain before you try
For all
A bucket full of memories by my side
Right now
Some circumstances did what they should find
Some how
They used to crack forever in my mind
"Join me for a trip into my favourite pool
Just a taste of what they call my circus
Back again as anybody's tool
Now and then
Forever and away..."
For sure
Some desperate explanations in a row
Once more
Some parasites were tending to the show
Behind
Misbehaviour chose another home
Rewind
Me struggling stealing searching all alone
"Join me for a trip..."
