need some time to swerve this melody so trivial  
underneath the floor + takes a while to interrupt this  
sequency and sometimes it will take a little more.... (2)  
a hundred years ago and younger than before: bigger  
braver twice as high... a second  
overflow - a longer way to go: this golden boy was lost  
within his eyes. but i never really tried to keep all of this  
inside...i thought it was for you, now i know this  
isn't true\_\_ i will never understand  
myself.\_\_ (3) takes some time to follow far enough,  
i'm getting closer from today\_\_ takes a  
while exoverrated stuff, but sometimes  
something "much too far away. (4)  
much too late and impossible to change, flattered  
hungry and abused. sometimes angry sometimes bad  
and sometimes strange, but sometimes i could feel a  
little bruised. but i never really tried to keep all of this  
inside
