got me a long long way down here as far as I know
think I was somebody else been going high - going
nowhere as far as I know still it's me to
trick myself to trick myself no flowers got me a long
long way down here been part of the show might get
lost without your help been going high - going nowhere
as far as I know still it's me to trick
myself to trick myself no flowers, please think I was
somebody else think I've always tricked
myself no flowers, please
