1st Verse:

I remember the first time you touched my lips,
what a sweet taste you left on my tongue,
and the fresh scent of grapes, lifted my spirits, and my
heart was sprung,

Blood Red and free flowing,
I am intoxicated by your taste,
you bring me up never down, and take me to my
special place,

Cerveza doesn't take me to this place,
where I feel like I can be free,
but the Sangria takes me high, where I find the best in
me,

Sangria you make me smile,
because you feel good to me inside,
you give me the heart of a child, and my feelings I
cannot hide,

So come on in, stay with me,
sit down and make your-self at home,
make me happy, make me smile, stay with me, and I'll
never be alone,

Chorus:

Another taste, another sip,
your sweet embrace is upon my lips,
chill it down, my heart is found, in your taste, sip after
sip,
