What's this all about  
Give me your doubt  
All I need is your full attention  
Gather 'round

We're never going down  
Listen to my sound  
As the beat fades in  
And your chest pounds

If you see what I see  
Then you know where we're going  
Just believe, it's a dream  
And I'll show you why I'm glowing

'Cause we'll never have to fight again  
There's no reason now  
'Cause all you need is love and love is all you've ever  
found  
Don't you know my friend  
That you know how  
'Cause I am you and you are everything you think about

I can tell you're cold  
So let me hold  
The moment you've been dreaming of  
But never told

Together we'd be bold  
Our hand would never fold  
When our eyes meet  
We can see each other's soul

Follow me, soon we'll be  
Where the clouds hang from  
Just believe, it's a dream  
And our sounds will make love

'Cause we'll never have to fight again  
There's no reason now  
'Cause all you need is love and love is all you've ever

found  
Don't you know my friend  
That you know how  
'Cause I am you and you are everything you think about

Slip into where you've been hiding all along  
And all your fear is gone  
Give in I swear there's so much waiting for you  
So much waiting for you

We'll never have to fight again  
'Cause all you need is love and love is all you've ever  
found  
Don't you know my friend  
That you know how  
'Cause I am you and you are everything you think about

Slip into where you've been hiding all along  
And all your fear is gone  
Give in I swear there's so much waiting for you  
So much waiting for you  
There's so much waiting for you
