[1]

Run when the rhythms rime, go into the night
Go until you're out of sight and you're out of my mind
Run when the rhythms rime, go into the night
Floating as the river flows, easy as it goes to the ocean

So walk on by I've got no reason to love you

But I do, I do, I do

So walk on by I've got no reason to love you

But I do, I do, I do

[chorus]

Show me colors of the sky

But all I see is grey when you lie

Promise me but you never try

Secrets in your eye, you go, and run, and hide

Show me colors of the sky

But all I see is grey and watch me when you lie

I don't even want to be a crown, just another prize that breaks my heart

[2]

Lost in the midnight blue

Shadows of the moon

Here with open arms for you

Feeling something so new

Stay with me and reach the side

Old back we were so young

Love me coz of the summer's dying

But keep me in your heart

So I hold on

So walk on by I've got no reason to love you

But I do, I do, I do

So walk on by I've got no reason to love you

But I do, I do, I do

[chorus]

Show me colors of the sky

But all I see is grey and watch me when you lie

promise me but you never try
Secrets in your eye, you go, and run, and hide
Show me colors of the sky
But all I see is grey and watch me when you lie
I don't even want to be a crown, just another prize that breaks my heart
Show me colors of the sky
But all I see is grey and blush when you lie
Promise me but you never try
Secrets in your eye, you go, and run, and hide
Show me colors of the sky
But all I see is grey and watch me when you lie
I don't even want to be a crown, just another prize that breaks my heart

Hard

Chug me to the ground now
And somehow I feel like you don't know me
Chug me to the ground now
You don't even know me
I don't even know how
Brought me to a life, that you never showed me
Coming from the light that goes [but the ...]
But you're coming from the light
There's only you and you ever thought there was yeah
Coming from the light
Run when the rhythms rime.
