I said darling why so blue  
She told me I been missin' you  
He said leave and she said stay  
Kissed my lips and quickly ran away  
Lost them buttons to my overcoat  
Pull your knife away from my throat  
She said smoke your cigarette I hope you choke  
Kissed my lips and quickly ran away  
I shake, I shake I could never see  
How good young love could really be  
I know, I know it's not that bad  
Take a look at what we had  
Walked you home from the park  
Held your hand it was after dark  
Hold me close, said she'll always stay  
Kissed my lips and quickly ran away  
Lost them buttons to my overcoat  
Pull your knife away from my throat  
She said smoke your cigarette I hope you choke  
Kissed my lips and quickly ran away  
I shake, I shake I could never see  
How good young love could really be  
I know, I know it's not that bad Take a look at what we  
had
