I watch the sun go down, I watch the sun go down  
Then I wander around, then I wander around  
It's here then it's gone  
Love doesn't last too long

I didn't even have time to get it straight in my mind  
To catch up from behind, to see that I was blind  
And I wish I was wrong  
But love doesn't last too long

All you lovers in the dark can forget what I said  
'Cause it still goes on in my heart  
And it still goes on in my head

Rivers to the sea, rivers to the sea  
How it is right now is how it's always gonna be  
It's here then it's gone  
Love doesn't last too long

I watch the sun go down, I watch the sun go down  
Then I wander around  
Then I wander around  
Then I wander around
