Woke up and wished that I was dead  
With an aching in my head  
I lay motionless in bed  
I thought of you and where you'd gone  
And let the world spin madly on

Everything that I said I'd do  
Like make the world brand new  
And take the time for you  
I just got lost and slept right through the dawn  
And the world spins madly on

I let the day go by  
I always say goodbye  
I watch the stars from my window sill  
The whole world is moving and I'm standing still

Woke up and wished that I was dead  
With an aching in my head  
I lay motionless in bed  
The night is here and the day is gone  
And the world spins madly on

I thought of you and where you'd gone  
And the world spins madly on.
