Let me sing you a song tonight. Let me sing you a song tonight. Let me sing you a song, oh it won't take long. Let me sing you a song tonight. Let me hold you hand tonight. Let me hold you hand tonight. Let me hold you hand, I won't squeeze too tight, so let me hold you hand tonight. Let me kiss you on your lips. Let me kiss you on your lips. If I kiss your lips, I swear you won't forget so let me kiss you on your lips. Let me dream you in my dreams. Let me dream you in my dreams. If I dream of you, I think it could come true so let me dream you in my dreams. Let me love you when I can. Let me love you when I can. Let me love you when I can, so I don't need a plan, let me love you when I can. Let me feel like I'm real. Let me feel like I'm real. Let me feel like I'm real, a piece of you I will steal so I can feel like I'm real. Let me sing you a song tonight. Let me sing you a song tonight. Let me sing you a song, oh it won't take long. Let me sing you a song tonight.
