(Yeah, nice one [done]...)

There's a light in my room so that it's always night or
day

I know that being responsible will help me find my way
Wellâ€¦ I'd swim an ocean to be around it
But I've been swimming since the age I found it
The sweet affliction, people are different
Feeling my head is my home (head is my home), better
than feeling alone

CHORUS:

There's something weird (x3)
There's something weird going on in my head
There's something weird (x2)
There's something weird going on in my head,
something weird going on in myâ€¦ head

Take me away from all the silence and the pain
Far from the growing ring of greed and personal gain
Wellâ€¦ I'd find a shelter, I'd be an outlaw
To dry myself off from the bullshit downpour
Don't need a reason, you don't deserve one
Just my amnesia time (easier time), 'cos in the back of
my mind

CHORUS:

There's something weird (x3)
There's something weird going on in my head
There's something weird (x2)
There's something weird going on in my head

I never knew I could leave here
I never knew it was so easy
Well I never knew it, I never knew I could fly

{2112 Rush-like bit!}
Hey-Hey-Hey!

Wooah, yeah...
I'd swim an ocean to be around it
But I've been swimming since the age I found it

The sweet affliction, I think you're different
Feeling my head is my home (head is my home), better
than feeling alone

CHORUS:

There's something weird (x3)
There's something weird going on in my head

There's something weird (x2)
There's something weird going on in my head
(x3)

Something weird (x24)
