By the light of the Tennessee moon
From the bilious bubbles of a black lagoon
They make a hound dog howl a SWAT team swoon
Hot frogs on the loose
They've multiplied since '53
Slurping nuclear debris
Amphibious fabulous fancy free
Hot frogs on the loose
CHORUS:
Hippity hoppity here they come
Radioactive lookin' for fun
If you kiss 'em look out for the tongue
Hot frogs on the loose
They got little skinny legs and big bug eyes
Fraternizing's not advised
They like you like they like flies
Hot frogs on the loose
They got a chicken nugget body and a whopper leap
In your bedroom while you sleep
They'll make your Geiger counter beep
Hot frogs on the loose

CHORUS

You can put the pedal to the metal till the rubber squeals

Squish 'em with your tires you got hot wheels

How you know how it feels to be a

Hot frog on the loose

Please do not keep them as pets

Sauteing them may bring regrets

Make a citizen's arrest of a

Hot frog on the loose

Frogs for peace frogs for defense

Don't be nervous don't be tense

We've got a sure-fire three-foot fence

To keep the hot frogs from gettin loose

CHORUS
