What a way to Surrender -- Surrender

What a way to Surrender -- Surrender

It was a mid-summer night dream long ago

I kinda got me a mood

About me, hit me,

Something was trying to tell me something

I know it sounds pretty crazy really

When you think about it, but I,

Heard voices calling me saying

Have you heard the good news personified

You realise what we're talking about

About the power of love

Why don't the United Nations

Declare a special night celebration

We're gonna send the weapons up on a starry night

Explode them above the atmosphere, it sounds right

The whole damn world will be watching

The magic mushrooms in the bright sky

Such a night of splendour

What a way to surrender

What a way to surrender

See me off down to grab the colonels and the generals

To write a letter to the heads of the Government --
Government

Asking them to name, the day-ay-aya

If you think anything of anyone

Why don't sit right down and write that letter

Getting rid of that fear the sooner the better

How about this for a mid-summer night dream

A night we all will remember

All will remember

We're gonna send the weapons up on a starry night

Explode them above the atmosphere,

It sure sounds right (believe me)

The whole damn world will be watching

The whole damn world will be cheering

Such a night of splendour

What a way to surrender

What a way to surrender

What a way to surrender

What a way to surrender
