I have a plan for you
It will only take a lifetime to see through
I'll show you where to start
And the most that it can cost will be your heart

Give me your heart forever starting now
The truth is out and living in you now
You'll find out you're safe now, the truth is out

I have a life for you and I know you think
You've missed your chances to find a happy end
And it's feeling later than it's ever been
All that you need is Heaven sent

The truth is out and living in you now
And you'll find out now the truth is out
It's all about forever starting now
And you'll find out, you're safe now, the truth is out

All the best for you and I'm here to help you
With the balance of the low and high
Your restless heart kept still
On the center of my perfect will

The call that you hear, you're free to fill
And life full of faith, hope and love

The truth is out and living in you now
'Cause you'll find out now the truth is out
It's all about forever starting now
And you'll find out you're safe now, the truth is out

Well, truth is out, the truth is out
