

## **Smash Mouth "Defeat You"**

Visit "[Defeat You](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Born is a human with a kung-fu spine  
Equipped with a detector of "What's on your mind"  
You jive, you shuck, you bob, you weave  
And when you're down you've got something up your sleeve

And you've got it good as bad as it gets  
You make your own incisions that come with regrets  
You're in it to win it and make every minute count  
You put it all together and dish it out

Hey, I know where you're from  
It makes it that much nicer to meet you  
Hey, I know what you've done  
It makes it that much better to defeat you

All that knowledge, all those skills  
All the gas it takes to get up top of the hill  
And while the others try to take your spot  
You wanna make them stop but you gotta make them stop

Would you do anything whatever it takes?  
Jacks in the road, yeah, fix the breaks  
It's the instinct that's got us locked up tight  
And it's the madness that's keeping us up all night

Hey, I know where you're from  
It makes it that much nicer to meet you  
Hey, I know what you've done  
It makes it that much better to defeat you

It's what we are, it's what we are, it's what we are

Born is a human with mechanics to win  
Born is machine with a human tucked in  
You jive, you shuck, you jab, you stick  
You're calling out for help when it gets too thick

Your honor, your honor it's not me  
It's the invisible, visible evil powers that be  
Untraceable, insatiable having to feed

Yeah, you cry when your wounded and you laugh when  
they bleed

Hey, I know where you're from  
It makes it that much nicer to meet you  
Hey, I know what you've done  
It makes it that much better to defeat you

Hey, I know where you're from  
It makes it that much nicer to meet you  
Hey, I know what you've done  
It makes it that much better to defeat you

It makes it that much better to defeat you  
It makes it that much better to defeat you  
It makes it that much better to defeat you  
It makes it that much better to defeat you
