21 thoughts getting older in my head
pros and cons whats been said
how i am how i will be
from this fence ill never see

i dont want forever to start from now
you know me i get freaked out
to worried to smile
to stubborn to cry
but i shiver im scared

but i wana hide ye
its decision time and iv been thinking
things im not proud of you know i feel in doubt but ive
been drinking
and the best thing to do
is the last thing i choose

our love was never a barrier
its too young to make it work
and im so unsure
but i cannot lie
i shiver im scared

but i wana hide ye
its decision time and iv been thinking
things im not proud of you know i feel in doubt but ive
been drinking
and the best thing to do
is the last thing i choose

its not that easy
its not that easy
its not that esy
its not hthat easy
its not that easy
its not that easy
