"With This Knife"

I let myself fall into a lie
I let my walls come down
I let myself smile and feel alive
I let my walls come down
No matter how i try i don't know why
You push so far away
You wrapped your hands tight around my heart
And squeezed it full of pain

[Chorus:]

With this knife i'll cut out the part of me
The part that cares for you
With this knife i'll cut out the heart of me
The heart that cares for you

I can't believe the way you took me down
I never saw the pain
Coming in a million broken miles
Like poison for my veins

[Chorus]

The hate and the fear
The nightmares that wake me up
In tears
The nightmares and (the hate)...
