Thee Tom Hardy is time to rap!  
What you know about the green magic?  
What you know?  
What you know?  
This right here, man?  
...  
What you know about the green magic?  
We all say Steve, let's do it!  
Cherry green!  
Cherry!  
What you know about the green magic?  
What you know about the green magic?  
Sick?  
What you know about the green magic?  
One, two, three!  
What you know about the green magic?  
The commissioner found the case and we got cursed  
by the green face.  
Taste what I speak is a miracle.  
I go hard and pronounce the word karma.  
You know, karma!  
False thoughts happening in the rock star fashion,  
Twenty years old and this...  
I went to New York, D.C and Philly,  
Now I'm back in Dermot and I feel real chilly.  
And that's the heaviest rhyme, but who cares,  
I heard you do a lot of your shows, but whose there?  
I stay chill at the house with the spouse,  
And all she wants to do is fuck me and do hair.  
I'm a writer; I've been about worst,  
Since... is been about fire.  
Never had girls, never had money,  
But nowadays everything I lose is a lighter.  
Ye I don't know Tom, my identity is a secret,  
Johnnies get to handle me a...  
I was sugar Â-wrap wondering with Chris and...  
When they were trying to sell State shoes to Brit teens.  
So tell me this, who came out the winner?  
Obviously me, Tommy is the beast,  
Super, unique, when I rock into a beat,  
Center of attention when I speak at ease.

Rappers wanna rap with me,  
I say cool, but the Academy is a label, certainly not a  
school.  
So, with that said, I need cash at front,  
I could never fall of like some ash from a...  
Ask what you want, but you'll never solve all the riddle,  
... like Malcolm in the middle.  
Where's that I screwed?  
You put change in my pockets,  
And gems I record get played like fiddle  
Blacks like... are slower than the turtle,  
Life is a bitch and I'm heading straight to murder,  
Probably with some girls,  
Rappers getting jealous cause... rock a party everybody  
goes...  
So watch it on...  
Yeah, I'm underground, underground like tunnel.  
... with a marker when I'm I'll with a pill,  
Evil genius on the mix so let the story begin.  
But wait until I'm doing rapping in the Academy team  
cabin,  
Impress these little rappers, need water and aspirins.  
Equipped with these huge sticks and get your daughter  
to stash it,  
Already got cursed, so get ready for green magic.  
Yeah, get ready for green magic!
