[feat. Donnis]

Get another, this money's coming, I promise it's not an option
Can't rush perfection, stop is impossible, the controversial cause trouble
When I speak all white air max with the bubble underneath
Life wanna sign me, now they all love me,
Babes try to find me, but they are all ugly
Why am I grinding for this money?
Yeah, alright, get another, get another

This money's coming, I promise it's not an option
Can't rush perfection, stop is impossible, the controversial cause trouble
When I speak all white air max with the bubble underneath
Life wanna sign me, now they all love me,
Babes try to find me, but they are all ugly
Why am I grinding for this money?

Why the long faces, this is so basic
Girl ask... to be wearing bracelets
Wait for a minute to shine but I'm patient
Quarter back running my team, I'm so...
Manning with the handling oh, plus shipping
Superhuman strength so the stages that I'm ripping
... start stripping when this mic that I'm ripping
For the money, one for the money, money, one for the money

Let the record show that I flow out of control
Going hard like a coast guard's job when it snows
Might catch a cold, better cover up
Got beef, I suggest that you squash like butter nets
Or blue balls, you know, hitting with the racquet
No competition I'm the... in the bracket
... stay blowing me out like lid matches
For the money, for the money, one for the money
And even dead people know time this is great

Cause me to doe flows is like rhombus to shapes
I don't have money or accounts in the bank
But I got a big chick that will shout when I spank
The rear, the rear
Hey look here, hear, I don't even care
I'm wild like beer, got you going crazy
Like crowds when I near,
For the money, one for the money, take it two

The same with words I'm first like...
Babes love dealing with me, they're such cart sharks
Time acing the holes, replacing the holes
I pull out my dick and tell her This is the hard part
Ride real cool, real new, real smooth, cool
You can see me on a magazine real soon
You could find me getting jiggy like the real boobs
One for the money, yeah

If you wanna get on my level the higher you gonna
reach me
Probably just nervous that your girl wanna leech me
You see me getting deep into her sternum
Give me a minute, I'm about to bring... Darwin
... holes get served, different positions they need
chiropractors and surgeons
Used to laugh at me now they're shaking ass at me
For the money, one for the money

What in time... for the base
Got my snickers tied tight cause it time to paper chase
Trying to get to the cheese in the America's rat race
without going through the traps
But it's hard when you're black, they won't cut me no
slag
So I rap as if I'm getting... 16, turn in... better than the 8
ball
When you hit the right corner side pocket,
You can... pool crib with a view, over hills, Beverly baby
Riding my... Mustang, rodeo baby
80 miles per hour, nothing but horsepower
Now they're turning... like...
Uuu, the nigger done is so sick, they say
Uuu, he's nothing to fuck with,
And I did it for the clothes, the whose and the money
Cause I am one for the money, yeah, call my time,
we're on a hustle.
