Know what I said when I saw you crying

Hang on that's folly

I was weak in the head out to meet your lying

You're just a bad memory

My life was going to be better

My why did I never ever see she'd step on me

Well I talked to your friend just the other day

I was gonna look and raise a smile

And she hid a smile and she ain't like you

Been asleep from all the journeys a little while

My life was going to be better

My why did I never ever see she step on me

Step on me, step on me, step on me

Now it's so good I won't waste my time

On a two year old picture of you

Oh now that you're gone everything's fine
