Your eye's and tone so typical
Inside and out so beautiful
Makes me lose my mind
But I can't remember why

This time makes me
Take one for the team
If you keep on giving me reasons to be
More than an image
More than a though
Cause' I'll steal you heart
Break the key so it's locked

So say you will
Give me one more reason to
Keep my heart unlocked for you
So say you will
Cause' I don't want to be
Unless I'm being you and me

The words you say are wonderful
With every move your so sinful
Push you 'til you break
Just to make you wait

This time makes me
Take one for the team
If you keep on giving me reasons to be
More than an image
More than a though
Cause' I'll steal you heart
Break the key so it's locked

So say you will
Give me one more reason to
Keep my heart unlocked for you
So say you will
Cause' I don't want to be
Unless I'm being you and me
