

Then Came Goodbye

"The Hollywood Song"

Visit "[The Hollywood Song](#)" on MotoLyrics.com

Red lights as the city sleep
With the white lights and the split between
The road divides my car from reaching you
This night is pushing for me to
Get to you without any questions
So I don't get unhealthy answers

Let's head out tonight
Take this car to the city line
And we won't stop
Until the Hollywood sign

Long drives 'til I get to you
Late nights hope you miss me too
This road won't keep me from reaching you
These nights turn into mornings
Her on my mind as the sun rises
Up over this town that we'll call home

Let's head out tonight
Take this car to the city line
And we won't stop
Until the Hollywood sign
